

Preschool Programs

2011-2012

Available from

The Cass County Conservation Board

712-769-2372

The programs listed below are sponsored by the Cass County Conservation Board and will actively involve your three, four, and five-year-olds in a fun, educational way. **A minimum of 10 four and five-year-olds is required.** If you would like a program please call Lora Schwendinger at the Cass County Conservation Board. Programs are provided free of charge.

Monthly preschool programs can begin as early as October and go through the month of May (with the exception of April). I have updated “old” programs and have created “new” ones. PLEASE read descriptions they have been updated. The second year rotation is on the second page with the suggested months of visit if those fit your curriculum better.

November- An “Ant”venture- Many of us don’t pay attention to the little critters until they find a way into our homes... but ants are truly remarkable! We have NEW songs, take home activities, and finish with the children role-playing different ant jobs. Snack recipe available.

December- Opossum “Tales”-Do opossums really hang upside down? Learn about this and more as your students become the parents of 13 baby opossums EACH! Can they take care of them without loosing any from their pouches, as they suddenly play dead???

January-The Mitten- This is a wonderful story that tells how a mitten became a home for all sorts of animals during the cold winter months. I have made animal masks for this program, which will allow all of your students to become a character in the book as they all try to fit inside of the “mitten”.

February- Lucky Ladybugs!-We’ll read *A Ladybug’s Life*, make a ladybug craft and then the children will get to become ladybugs as we play “Aphid Munch”.

March-Chicken’s aren’t the Only Ones- We will read this book as children discover which other animals lay eggs. They will then have the opportunity to look around the room for eggs. Can they figure out what laid the egg?

April-NO PRESCHOOL PROGRAMS OFFERED THIS MONTH

May (third week only)-“I Spy” Nature Walk &/or Animal Surprises-Venture outdoors and look for signs of the season as we “spy” different things in nature. I will finish the program/school year by showing my live animals and other critters that I may have collected.

New!!!

October- Touching Trees- Explore leaves and trees on a hike. We will also read **Leaf Man**, and use leaves in a math activity. Crafts, songs, and snack recipes are available

November – Tails- We will read “**Why Animals Have Tails.**” Students will see tails up close and personal, and investigate how animals use their tails! Our activity will be a “tail” craft.

December- Tracks- Is based on the book **Who’s Tracks are These?** We will look at different tracks and how to tell them. Activities- song, track rubbing kit, track art, matching sheets, or hike if there is snow, there is also an optional pre-visit activity. Snack Recipe available.

January - Winter Adaptations- We will read **When Winter Comes** and talk about how many animals have winter adaptations and how they might have gotten them. Our activity will involve a SLURP critter which we have to protect from the cold to survive.

February- Owl Moon- We will read this wonderful story even sing a song about story in the book. We will also discuss owl mommies and owl activity. NEW: Owl Puppet craft or owl paper plate craft!

March- Terrific Turtles- We will read the story **Box Turtle at Long Pond.** Learn all about turtles here in Cass County. Optional turtle snack and meet a real Box Turtle (with teacher approval)!

May- Skunks- Learn all about this lonely species! Read “**Skunk at Hemlock Circle**”, and discover Iowa’s 2 species striped and spotted.

What is WILD??- We will read “**A Day in the Life**” including felt board figures that act out the story and learn what makes an animal WILD! Craft and snack recipe available.

Wildlife as Symbols- Children explore how wild animals are used for a variety of purposes. Learn about bald eagles and outside hike to look for “wildlife symbols” is available.

Backbone Bonanza- Children will learn about vertebrates and some characteristics that distinguish them! We read “**Mixed-Up Chameleon**” and “vertebrate safari” hike is available. Many extensions into crafts, music and snacks are available.
